### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 14-20 directed to invention non-elected without traverse. Accordingly, claims 14-20 been cancelled.

The application has been amended as follows:

#### In the Claims

Claims 14-20 have been cancelled.

2. The following is an examiner's statement of reasons for allowance: While Whitlock et al. discloses all of the structural components recited in claim 1 and the mesh material of claim 21, Whitlock et al. is silent as to the interlocking of fibers from one mesh layer with the fibers of an adjacent layer. And, while Mutzenberg et al. may disclose the process of interlocking fibers from one mesh layer of a screen with fibers of an adjacent layer, the screen or mat of Mutzenberg et al. is not analogous with the subject matter of Whitlock et al. nor the claimed invention thus is not considered combinable with Whitlock et al. There is further evidence that Whitlock et al. is not combinable with Mutzenberg et al. as Whitlock et al. specifically states that the individual layers of the screen are formed so that they are not interconnected (disclosed in US 5,664,628 which is recited as being the method for forming the screen of Whitlock et al., col. 3, lines 45-50 of Whitlock et al.) thus teaching away from interlocking adjacent layers together.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
